

BRITNEY MARTINEZ

San Antonio, TX | (915) 262-5659 | britneymartinez571@gmail.com

PROFESSIONAL SUMMARY

Cum Laude cybersecurity graduate with leadership experience supporting secure operations, access authorization review, incident and issue triage, reporting, and cross-functional coordination in high-responsibility environments. Hands-on training in host hardening, network analysis, PKI workflows, web traffic analysis, and virtualization. Seeking entry-level cybersecurity, SOC, data protection, or IT security support role.

CORE COMPETENCIES

Security & Compliance: Access authorization review, issue triage, incident documentation, data protection awareness, DLP/IAM concepts, secure communications

Technical: Microsoft 365, Excel, Windows, Windows Server, Oracle VirtualBox, Kali Linux, Nmap, Burp Suite, Metasploit, DNS, HTTP/HTTPS, SSL/TLS, Python fundamentals

Operational: Reporting and analysis, troubleshooting support, team leadership, vendor/client coordination, bilingual English/Spanish

EDUCATION

The University of Texas at San Antonio — Bachelor of Business Administration in Cybersecurity, Minor in Business Administration

Graduated Dec 2025 | GPA: 3.7 | Cum Laude

RELEVANT EXPERIENCE

Assistant Director, Professional Security Consultants — San Antonio, TX | Oct 2021–Present

- Lead daily operations for a multi-million-dollar facility while supervising a staff of 20+ employees and coordinating scheduling, training, payroll, documentation, and escalation support.
- Combine management and security support responsibilities by conducting access authorization reviews, supporting credential-related processes, and reinforcing secure access practices and policy compliance.
- Triage operational and technology-related issues; support ticket follow-up, perform equipment and endpoint checks, and coordinate timely resolution with internal teams, contractors, and vendors.
- Document incidents and recurring issues, organize reporting data, analyze trends, and communicate findings or updates to management to support informed decisions and continuous improvement.
- Serve as a liaison among employees, clients, contractors, and internal teams, balancing multiple priorities with professionalism, discretion, and clear communication in a fast-paced environment.

CYBERSECURITY PROJECTS

- Completed hands-on cybersecurity labs involving host hardening, network analysis, PKI workflows, web traffic analysis, and structured technical documentation.
- Strengthened practical knowledge of access controls, secure configurations, investigative thinking, and common security tools through lab-based exercises and technical write-ups.
- Currently preparing for CompTIA Security+ to strengthen foundational knowledge in security operations, risk, networking, and incident response.
